MESSINGER, THE ORIGINAL BEARING MANUFACTURER, IS THE NATURAL CHOICE WHEN YOU NEED A REPLACEMENT.

For over 90 years, Messinger Bearings has manufactured and designed large scale paper mill equipment bearings. Throughout the years, Messinger Bearings has been the prime bearing supplier to leading original equipment manufacturers in the paper mill industry including Beloit, Downingtown, Rice Barton, E.D. Jones, Black Clawson, Shartle Brothers, and Bauer Brothers.

Messinger has designed and manufactured bearings for many paper mill applications including:

- Couch rolls
- Dryer rolls
- Miami Jordans
- Imperial Jordans
- Marjestic Jordans
- Pulpers
- Dandy rolls
- Press rolls
- Suction press rolls
- Calendar rolls
- Super-Hi calendar rolls
- Refiners

Many of these custom made bearings are in paper mills throughout the world. And only Messinger stocks them. In addition, Messinger manufactures paper mill bearings for many other types of applications. too .

So the next time you need to replace a bearing, simply contact Messinger and give us your part number. Whether it's an OEM or another bearing manufacturer, chances are we'll be able to trace your bearing back to the OEM specification that Messinger designed for the paper mill.
